

Module 1: (Re-)Design Existing Space

Consider where one or more of the following might go in the space. Remember to account for architectural details that can't be removed (such as pillars).

- People: your unit's staff, other campus experts, visiting scholars, student workers
- Equipment: desktop machines, scanners, external monitors, data canvases
- Services: workshops and lectures, classroom visits / tours, consultations

Module 1: Design Ideal Space

Consider where one or more of the following might go in the space.

- People: your unit's staff, other campus experts, visiting scholars, student workers
- Equipment: desktop machines, scanners, external monitors, data canvases
- Services: workshops and lectures, classroom visits / tours, consultations
